

# inTouch Automation

## BRINGING YOUR POOL INTO THE FUTURE WITH INTOUCH AUTOMATION

Your backyard swimming pool is a great investment for your household. Your pool will give your family many years of enjoyment and potentially add significant value to the property at time of selling or renting.

However, most pools require some time and money to ensure it is always in tip top condition. Imagine if you could monitor and control all aspects of your pool equipment from any smart device, anywhere in the world. No longer get a green pool 'surprise' when you return from holidays.

Insnrg have developed the inTouch range of pool automation to make this happen with simple cable-free installation at affordable price points.

## WHY CHOOSE INSNRG INTOUCH AUTOMATION?

Insnrg have designed and manufactured all of their smart products to include the latest 'Bluetooth Mesh' technology which allows easy automation for your pool.

### INTOUCH APP

Any Insnrg product that has Bluetooth included can immediately be connected to the inTouch App. The inTouch App is available in the Apple store or on Google Play to suit any smart device. Set-up your username and password, then follow the instructions to activate your applicable equipment. Now you can monitor and control from your backyard. It's like having your smart phone as the remote control for your equipment.

### CONNECT ANYWHERE IN THE WORLD

Imagine you're away on holidays and you can't remember if you turned off the Gas Heater. Rather than wait till you return to a warm pool and an expensive bill, grab your smart phone, check and change if needed. Simply purchase the inTouch Portal which will connect to your home WiFi and enable you to use your App wherever you are.

### INTOUCH PORTAL

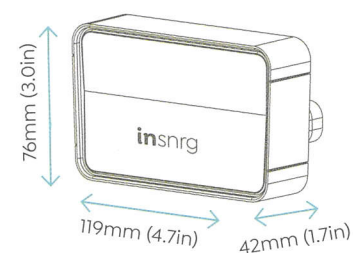

Easy connection to your home WiFi

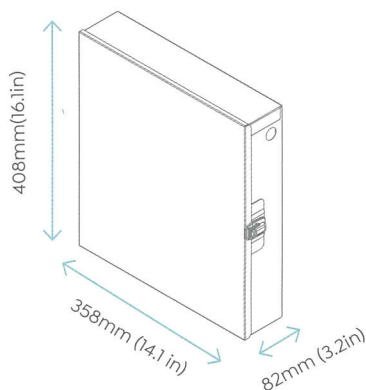

### GIVE ACCESS TO YOUR POOL PROFESSIONAL 24/7

To maintain the healthiest and safest water possible it is always recommended to involve your local pool professional who can provide you with the best possible solutions for your pool. If you have connected your equipment with the inTouch Portal, you can now give access to your local pool professional. They will be able to monitor your connected equipment and even set-up alerts should key qualities go out of range. Imagine being able to fix a problem before it becomes a costly exercise, the ultimate peace of mind.

## DIMENSIONS & SPECS

**Portal**

**Expansion**

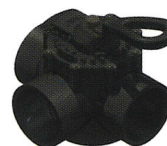

## INTOUCH EXPANSION

If you have a pool with many equipment features such as Waterfalls, Spa Blower, Deck Lights, entertainment systems to name a few, then the inTouch Extension gives you the ability to connect up to 6 more additional products to control on your inTouch App.

You can also utilize with non-Insnrg branded products and at least operate limited functions.

## AUTOMATE YOUR WATER FLOW

Insnrg also supply a range of valves to assist in directing your water flow to the correct equipment. Making this easier is the ReadySet® Valve Actuator. Install the Valve Actuator on your system and connect to either the Vi Premium Chlorinator or inTouch Expansion and now your valves will turn automatically from your inTouch App. No more trips to the backyard trying to remember which way to turn.

### RELAX, YOU'RE COVERED (WARRANTY & DEALER SUPPORT)

Your inTouch automation systems come complete with a **2 year warranty**. Refer to Insnrg website for further details. Check with your local pool professional about implementing a maintenance program to ensure you maximise the life and performance of your investment.
